WHY CHOOSE AN LPD DOOR SET?

Delivered direct to site, fully assembled and ready to install, our doorsets have been designed to streamline your renovation, for the perfect balance between quality and ease.

STYLE FOR EVERY DEVELOPMENT

Every doorset is custom-made and can be tailored to your specifications. Offering a wide range of finishes and designs across our door styles, handles, and frames, you can ensure that every element is to your liking. Whether you're looking for something modern and sleek or classic and timeless, we have styles to suit every look.

QUALITY YOU CAN TRUST

Every doorset is manufactured and assembled at our Leeds based HQ using advanced CNC technology, then hand finished by our expert craftsmen to guarantee tolerances and clearance gaps are correct and consistent prior to delivery.

SWIFT & SEAMLESS INSTALLATION

Taking the guesswork out of installation, our doorsets are designed to ensure a quick and straightforward installation process. With everything delivered, aligned and pre-assembled, the installation process is simplified and can be complete within 30 minutes whilst still ensuring a consistent quality.

REDUCED SITE WASTE

Our ready to hang doorsets are delivered on a pallet to minimise site waste. In addition, each door has been pre-machined with the handle position to remove the need for additional finishing materials and tools, for a clutter-free installation process.

LPD Doors is more than just a supplier - with more than 45 years experience in the door industry, we have a wealth of knowledge and expertise to ensure you have the best products and services at your fingertips.

Our dedicated sales team is on hand to guide you through every step of the process, from door selection to installation, we look after your order from the word go. We also understand the importance of embarking on your project without delay. Our commitment to swift service is backed by our 125,000 square foot warehouse, equipped with the latest racking and stock inventory systems. In addition, our 60 strong in-house fleet allows us to offer fast turnaround times from the moment you place your order, to the prompt delivery directly to your doorstep.

DOORSETS
MADE FOR YOU.

THE FRAME

DOOR HANDING

RIGHT HINGED / PULL TOWARDS

LEFT HINGED / PULL TOWARDS

A STYLE TO SUIT EVERY TASTE.

When it comes to delivering exceptional results, choosing the right door can make all the difference.

From classic to contemporary, our wide selection of door finishes and designs has something to suit every project. Whether you are after a traditional look or something more modern, our extensive range offers the versatility to match any interior style, without compromising on budget.

With both solid engineered and semi-solid core options available, all our doors are crafted to meet the highest standards of durability, design, and value. To reflect our commitment to sustainable sourcing, many of our doors are FSC certified. Plus, for added peace of mind, we also offer fire door options, ensuring compliance without sacrificing style.

IMPORTANT INFORMATION

HOW TO ORDER

Once you have chosen your desired doorset, you can place your order with one of our trusted builders' merchants or trusted retailers. To find your local stockist, **please visit lpddoors.co.uk.**

DELIVERY

Operating a fleet of 60 vehicles, we have vehicles constantly on the road up and down mainland UK, ensuring complete control over our delivery schedules and fewer damage returns. Our doorsets are delivered palletised and can be sent direct to site or to a stockist on curtain-side vehicles suitable for forklift off loading.

STORING YOUR DOORSET

To ensure your doorset stays in pristine condition and has time to acclimatise before installation, they should be stored horizontally and fully supported on a raised and even surface three days prior to hanging. This will avoid any warping, or damages caused by surface moisture. In addition, they must be kept in a sheltered area, avoiding direct sunlight to prevent discoloration. We do not recommend our doorsets to be stored in storage containers, or fitted in a room with fresh plaster.

FINISHING GUIDELINES

All Unfinished and Primed products must be finished with an appropriate treatment immediately after installation. Pre-finished doors however, come already finished and ready to install.

White and black primed products should be decorated with a good quality oil or solvent based timber paint suited to your property.

LPD Internal Joinery is not suitable for all waxes, polishes, dyes or certain oils. Please speak to the manufacturer of the product prior to use to ensure it is suitable for the style and construction of your veneered door. We recommend LPD Hard Wax Oil for our unfinished oak internal products. It is designed to enhance and protect the natural beauty of your door and is user friendly, easy to apply and can be used in all interior situations.

SCAN THE QR CODE TO VIEW OUR RANGE OF HARDWAX OILS.

RETURNS POLICY

Please note, wood is a natural product and therefore variants in the colour and grain is common. We suggest doors are purchased in plot orders to avoid batch variation. It is vital that you check the product before it is hung so issues can be resolved quickly and efficiently. Once a door is hung, this is deemed as acceptance and will not be liable for a return.

10 YEAR GUARANTEE

When it comes to producing quality doors to stand the test of time, we use only the finest quality materials and manufacturing processes. We are proud to stand by our doors, and we have no hesitation in offering a conditional 10 Year guarantee against faulty materials or workmanship.

Should one of our doors be found to be defective upon delivery, or develop a fault due to faulty materials or workmanship within 10 Years of delivery, at our discretion we will offer the original purchaser the option of repair, replacement or refund.

Due to the manufacturing process, colours and specification of the products may vary from those shown. Please note: guarantee is 5 years for glass and hardware.

Please refer to details online at lpddoors.co.uk.

CERTIFICATIONS

FIRE DOORS

Throughout this brochure, fire-certified doors are clearly marked with a fire symbol. This means these door styles can be supplied with 30 minutes of fire resistance. Please note fire doors are 44mm thick.

All our fire-resistant joinery products come with fire rated hinges EN1935, fire rated latch & lock EN12209, as well as a compliant door frame with a pre-cut groove for the intumescent strip.

PAS24

Any Door that is marked with the PAS24 symbol meets the PAS24:2016 security standard, which is the UK benchmark for enhanced security performance of doorsets. This standard ensures that the door has been rigorously tested against various forms of forced entry, including manual attacks and mechanical testing.

PAS24 doors are often required for new builds and refurbishment projects to comply with building regulations, offering homeowners and property developers increased confidence in the door's resistance to burglary and overall security performance.

FSC®

The FSC (Forest Stewardship Council) certification is a hallmark of responsible forest management, ensuring that wood products, like our internal doors, are sourced from sustainably managed forests. By choosing FSC-certified doors, you contribute to the preservation of ecosystems, support biodiversity, and promote fair labor practices.

For information on which of our Doors are FSC® contact a member of our sales team.
